VMware Horizon 7 and Horizon Apps

Edition Comparison Table

VMware Horizon® 7 and VMware Horizon Apps are desktop and application virtualization solutions designed to deliver Windows and online services on premises. With Horizon technology, VMware extends the power of virtualization—from data centers to devices—to deliver desktop and application virtualization with great user experience and closed-loop manageability.

VMware Horizon 7 is available in three editions: Horizon Standard, Horizon Advanced, and Horizon Enterprise. All three editions include all components needed for an end-to end virtual desktop deployment.

VMware Horizon Apps is available in two editions: Horizon Apps Standard and Horizon Apps Advanced. Both editions include all components needed to publish apps in the data center and deliver them to the digital workspace.
